

Smart Docks

Smart and Attractive - The perfect combination

savant

With Savant's sleek and flexible Smart Docks, the Apple iPad®, iPhone® and iPod touch® are transformed into cost effective fixed and wireless touch panels - delivering two-way control and navigation of your SmartSystem, and the ability to instantly share, access and stream your entire personal music or video collection throughout the house.

Control Docks

Convert the Apple® iPad® and iPod touch® into cost-effective in-wall and tabletop touch panels.

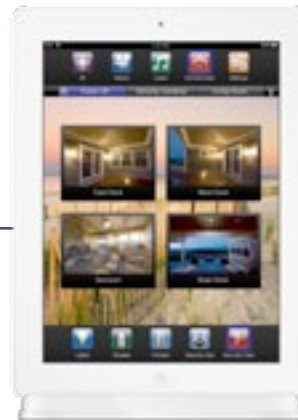

In-Wall Docking Stations for the iPad® and iPod touch®

These attractive wired and wireless Smart Docks consist of in-wall docking cradles and include low-profile magnetically attached bezels. The iPad® and iPod touch® are powered via these docks, and their touch screens are used for navigation and control of Savant's SmartSystems.

Smart Docks

Smart and Attractive - The Perfect Combination

Tabletop Docking Station for the iPad®

Comprised of an aesthetically pleasing cradle and power supply, charge your iPad® while simultaneously navigating Savant's TrueControl and Truelmage for wireless whole-house control and automation.

Media Docks

An entertaining link to Apple's® popular family of personal media players – convert any iPhone® or iPod® into an active media player within your Smart Home.

Savant's Media Docks are compatible with Apple's iPhone®, iPod nano®, iPod classic®, and iPod touch®

Simply plug any iPod® or iPhone® into Savant's in-wall or tabletop Media Docks to instantly share and access your or a guest's entire personal music or video iTunes® collection throughout the house.
