Intelligent Control, Automation and A/V Distribution Devices

## SmartControl

### Automation and Control Expansion

Savant's line of intelligent and expandable control only devices delivering whole-home automation. SmartControl easily connects with: audio/video components, lighting, climate, security systems, and any other equipment or technology commonly deployed in the home.

Savant offers a number of expandable Apple®-based control and multiroom audio and video SmartSystems that easily connect to and manage all the technologies in your home. From stand-alone home theater control to whole-home automation managing multiple services and devices simultaneously to robust media distribution, Savant's line of SmartSystem solutions can effortlessly manage all functions based on your lifestyle.

## SmartAudio

### The Ideal Home Control and Multiroom Audio System

Control any device or service (lighting, climate, security, etc) and distribute music up to 8 zones with SmartAudio. Play independent audio streams from multiple formats and sources to set the mood or enhance your surroundings. Power your SmartAudio listening experience with Savant's 16-Channel Digital Amplifier.

## SmartSystems

### Intelligent Control, Automation and A/V Distribution Devices

## SmartVideo

### Control and Cutting-edge Video Features

SmartVideo delivers integrated control connectivity, video distribution, processing and scaling, and powers Savant's on-TV Menu Portal – TrueCommand. Savant's SmartVideo can enhance your viewing experience by taking a standard definition video source and scaling it to full HD 1080p video.

## SmartMedia

### Savant's SmartSystem That Can Truly Do it All!

With well-balanced features, the SmartMedia platform delivers whole-home control, multi-room audio, video distribution and the enabling of Savant's on-TV Menu Portal – TrueCommand. All of this from a single system packaged within the smallest possible footprint - now that's Smart!

## SmartMediaPro

### For Large and Complex Multizone Environments

Savant's family of high-bandwidth matrix switchers and controllers provides audio and video switching, video processing and scaling, complete control and automation, customizable digital signage and video overlay features including TrueCommand. SmartMediaPro can deliver up to 36 HD video zones and 144 rooms of audio.
